

SIMPLY WELDS EVERYTHING.

S3 Mobile

- Unique portable, Integrated system
- Advanced high-speed processes **Speed Arc XT, Speed Pulse XT, Twin Pulse XT, Speed Root**
- 320 Amp Output
- The proven Pulse Solution

LORCH SPEED PROCESSES

SPEEDPULSE XT extra fast,

extra low spatter

SPEEDARC XT deeply impressive

TWINPULS XT tig like appearance

SPEEDROOT mig root pass welding, quality that is noticeably better

SPEEDCOLD efficiency whilst thin sheet welding

SPEEDUP a new way of vertical up welding

MicorMig Series

- "3 steps to weld" operating concept
- Infinitely adjustable welding current setting
- Digital volt-ampere display
- Activation of end crater filling as necessary
- Arc dynamic control
- Automatic setting control (synergy control)
- Welding program selection in the feed compartment
- Upgradability

LORCH

smart welding

MADE IN GERMANY

S3 mobile Pulse XT

Excellent all around - even when used on the go.

- Variable arc length control
- EN 1090-certified
- Dynamic control
- Pulse welding machine
- Mobility
- Intuitive operation

From **\$8595** + gst

MicorMIG Pulse 300

Big advantage on thin sheets.

- Exceptionally versatile
- Good-bye, transition arc
- Effortless handling

From **\$6595** + gst

MicorMIG 350

Grows with your challenges.

- Future-Proof
- Continuous intelligence
- Highly customizable

From **\$6195** + gst

The arc for maximum profitability

The arc for the perfect appearance

TIG WELDING

T 220 AC/DC

The mobile welding unit for real TIG professionals.

- Outstanding TIG weld characteristics
- Protected against falls from a height of up to 60 cm
- Intelligent Torch Control
- TipTronic
- pulse and fast pulse up to 2 kHz
- Low energy consumption

From **\$4995** + gst

T 300 AC/DC

The mobile welding unit for real TIG professionals.

- Signature feature
- Outstanding TIG weld characteristics
- Protected against falls from a height of up to 60 cm
- Intelligent Torch Control
- TipTronic
- pulse and fast pulse up to 2 kHz
- Low energy consumption

From **\$6995** + gst

X 350

Added strength for large electrodes and ideally suited for CEL thanks to MicorBoost.

- MicorBoost Technology
- Tough housing
- For basic, rutile, cellulose and special electrodes
- Hotstart, Anti-Stick and Arc-Force regulation
- DC-TIG with ContacTIG
- MicorUp

From **\$4195** + gst

AC/DC ON TOUR.

Intelligent Torch Control

Low energy consumption

Protected against falls from a height of up to 60 cm

Non-contacting HF ignition

Outstanding TIG welding characteristics thanks to inverter technology

The SmartBase expert database provides for optimum arc conditions

Pulse and fast pulse up to 2 kHz

Electrode welding function

Changeover from DC to AC (AC/DC only)

The X series at a glance

Designed for extreme applications

Multi-talented

Gouging

CC and CV curve for MIG-MAG welding

Mobile

Anti-Stick System

Arc-Force regulation

ALL LORCH MACHINERY HAS OPTIONAL EQUIPMENT SUITABLE FOR YOUR APPLICATION GET IN TORCH!
