

# POWER TO WELD ... ANYWHERE!

**A world first, the Micor TIG 200DC delivers the complete package: perfect HF, pulse TIG and stick welding from mains, generator or battery power.**

**Every time!**

- **Portable TIG welding inverter.** Mobile compact 200 DC TIG welding machine with MicorBoost technology, non-contact HF ignition and electrode welding function.
- **Total Flexibility.** All-in technology for mains supply, generator or battery provides complete independence.
- **Graphic display with job memory.** Clearly structured user interface makes control and use of the machine intuitive.

Open 8-12pm every Saturday, except Public Holiday long weekends  
All prices are GST Exclusive

# THE POWER... REVEALED!

Accu-ready and battery pack mobile power is the world first technology developed for welding applications on the go that sets the MicorTIG 200 DC apart from the competition.

Mains-independent, exceptionally versatile and powerful. MicorTIG plus MobilePower is the formula for short distances. No need for mains power or long generator cables.

Simply connect the Mobile-Power battery pack to the MicorTIG Accu-ready and start welding straight away. Ideal for repair and maintenance work in rural, mining and construction industries, delivering exceptional welding performance.

## Technical data

	MobilePower	
Power	Wh	604.8
Charging cycles	mm	approx. 1,000
Dimensions (L x W x H)	mm	323 x 131 x 215
Weight	kg	7
Charge time	min	150

## Full flexibility thanks to changeable batteries.

Battery 1 = Up to 28 electrodes      Battery 2 = Up to 56 electrodes      Battery 3 = Up to 74 electrodes      Battery 4 = Up to 102 electrodes
