

# BACK IN STOCK

Natural deerskin split leather glove with orange deerskin cuff.

Very soft and supple, no exposed stitching, great dexterity for fine work.

One size, length: 30cm

## \$13.50

# Ensitech Tig Brush Cleaner

## Features of all machines:

- One-step weld cleaning and passivation when used in conjunction with Ensitech's proprietary fluids.
- Powerful, fast, High-quality weld cleaning.
- Superior surface protection.
- Safe, economical operation on single-phase power.
- Portable and tough design.
- Class-leading 100% duty cycle under standard

## TBX-440 Propel

Delivers power and flexibility in an economical package for less demanding applications where variable power and the fastest cleaning speeds are not essential.

## \$2,500

## TBX-550

The TBX-550 is a 55 amp unit that will clean mig & tig welds much faster, with more power.

The special brush tip design allows welds of all shapes and positions to be easily reached and cleaned.

## \$3,575

## TBX-700

This small, powerful unit uses a unique high-temperature brush to conduct electrical energy to the surface of stainless steel. The high temperature combined with the mild solution quickly removes weld discoloration and simultaneously passivates the stainless steel surface.

## \$6,500

MARCH 2018

Open 8-12pm every Saturday, except Public Holiday long weekends  
All prices are GST Exclusive

# Welding Blankets

## GOLD FIBREGLASS WELDING BLANKET

Made from 24 oz., (.034" thick) gold, acrylic-coated fiberglass material.

Features a 1000° melt temperature and protection from spark, spatter and abrasion.

1.8m x 1.8m **\$110**

1.8 x 2.4m **\$170**

## LIGHT DUTY WELDING BLANKET

Protection from sparks, spatter and slag.

18 oz heat treated tan fiberglass - uncoated.

Grommets on 45mm centres on all sides.

550°C service temperature.

Kevlar stitched hems.

3m X 2.4m **\$115**

## LEATHER WELDING BLANKET

Made from the highest quality chrome-split leather.

Double-stitched with Kevlar thread.

Made from 9 pieces of leather to provide protection from sparks and splatter.

12 heavy duty metal reinforced holes for tying it down.

1.8m X 1.8m **\$145**

## WELDING CURTAIN - FRAME NOT INCLUDED

Heavy duty vinyl, electronically welded hems, grommeted and ready to hang.

Use around Mig, Tig, Arc, Plasma, Gas or other high amperage welding arcs.

Filters Far/Near UV radiation and Blue Light, allows more light into welding booth.

Excellent for use in assembly areas.

Increases safety, brighter and better working environment.

1.8m X 1.3m **\$71.40**

1.8m X 1.5m **\$88.00**

1.8m X 1.8m **\$97.06**

1.8m X 2.0m **\$99.75**

**Note:** the frame is not included or stocked by ARC Welding & Safety Supplies
