APR900 HELMET
& JACKET
FREE
with FIRST 20
LORCH welder
sales*

*This promotion is valid only with the purchase of a machine displayed in this promo flyer. Each customer is limited to one qualifying purchase. The Lorch Welding Jacket and APR900 Welding Helmet are valued at over \$1,000.

S3 Mobile Speedpulse XT

- Gas-Cooled
- Lorch S-series machines speed up welding task completion, improve quality and, first and foremost, low-spatter. The pre-installed characteristic curves also facilitate welding work.

220.3301.4	Steel	\$8,851
220.3307.3	Aluminium	\$9,656

S3 Speedpulse XT

- Lorch S-series machines speed up welding task completion, improve quality and, first and foremost, low-spatter. The pre-installed characteristic curves also facilitate welding work.

S3AGC4WDFF	Gas-Cooled	\$11,673
S3AWC4WDFF	Water-Cooled	\$12,478

Micorstick 180 ControlPro

- Light weight with compact external dimensions.
- Accu-ready to connect with battery pack Mobile Power.

Part No. 111.1805.0

\$1,771

Lorch X350

- light-weight high-performance champion
- Extremely stable in spite of its low weight.

116.3500.0	BasicPlus	\$3,667
116.3500.1	BasicPlus VRD	\$3,703
116.3510.1	ControlPro VRD	\$4,826

S5 Speedpulse XT

- Water-Cooled
- Lorch S-series machines speed up welding task completion, improve quality and, first and foremost, low-spatter. The pre-installed characteristic curves also facilitate welding work.

220.5000.9CAC	Standard	\$12,478
220.5000.9	BB Dual	\$20,121

MID-YEAR SPECIALS

APR900 HELMET & JACKET
FREE
with FIRST 20
LORCH welder
sales*

MicorMIG 400

- Advanced Speed Processes & Lorch Connect.
- Lorch MicorMIG Series - Outstanding welding results on steel, stainless steel, and aluminium.
- The innovative and patented Micorboost technology maximises power and the voltage reserve in the arc, optimising welding properties for all sheet metal as well as medium and heavy steel work with mixed gas or under CO2 alike.

224.4000.9	Water-Cooled	\$7,648
224.4000.9CPGC	Gas-Cooled ControlPro	\$7,446
224.4000.9GC	Gas-Cooled BasicPlus	\$6,843
224.4090.3	Gas-Cooled BasicPlus Full Process	\$8,851

MicorMIG 500 Water-Cooled

- Advanced Speed Processes & Lorch Connect.
- Lorch MicorMIG Series - Outstanding welding results on steel, stainless steel, and aluminium.
- The innovative and patented Micorboost technology maximises power and the voltage reserve in the arc, optimising welding properties for all sheet metal as well as medium and heavy steel work with mixed gas or under CO2 alike.

Part No. **MM500CPBWC10MFP**

\$10,868

T-Pro Control Pro Water-Cooled

- Lorch T-Pro Series - TIG high performance for the workshop.
- The T-Pro series with its robust yet compact housing is the perfect TIG power source for your workshop. It can be relocated quickly and flexibly for its next assignment.
- At the same time, the gas cylinder for up to 50L will always stay safely connected to the power source.

251.1251.1	250 DC	\$7,241
251.1306.1	300 AC/DC	\$9,258

V50 DC Water-Cooled

- Lorch V-series - is the perfect equipment to weld any material, from alloy steels to copper, at the highest performance.
- Contact-free HF ignition increases arc stability and optimises arc initiation. The automatic final phase reduction ensures a perfect weld end due to the clean end-crater filling.

Part No. **257.5000.9**

\$12,075

TF-Pro 300 DC Water-Cooled

- The industrial grade TF-Pro Series 415V input and is available in 300 Amp DC configurations.
- TF-Pro system incorporates a fully integrated cold wire feed system, feeding wire into the weld pool from a MIG wire spool, to drive productivity. Fully featured for professional use with a full line of accessories available to create optimised end-user solutions

Part No. **251.4301.1**

\$10,461

TIG Cold Wirefeeder FEED 2

- The TIG cold-wire feeder automates the manual feeding operation, suits T-series and V-series Lorch TIG welding units.

Part No. **450.7002.9**

\$5,631

MIG-MAG Torches

Gas-cooled MIG-MAG torch ML 3800

- Standard Configuration
- 4 m
- Suitable for: Lorch S-series and Lorch MicorMIG machines

Part No. 503.3800.4

\$277⁷⁰

Gas-cooled MIG-MAG torch ML 3600

- Powermaster Configuration
- Suitable for: Lorch S-series and Lorch MicorMIG machines

503.3601.3 3 m **\$543⁴⁰**

503.3601.4 4 m **\$543⁴⁰**

Gas-cooled MIG-MAG torch ML 3800

- Powermaster Configuration
- Suitable for: Lorch S-series and Lorch MicorMIG machines

503.3801.3 3 m **\$543⁴⁰**

503.3801.4 4 m **\$543⁴⁰**

503.3801.5 5 m **\$559⁰⁰**

Water-cooled MIG-MAG torch MW 5300

- Powermaster Configuration
- 5 m
- Suitable for: Lorch S-series and Lorch MicorMIG machines

Part No. 503.5301.5

\$648⁰⁰

Push Pull MIG-MAG torch LMG 300

- Standard Configuration
- Gas-cooled
- 8 m
- Suitable for: Lorch S-series and Lorch MicorMIG machines

Part No. 503.8301.8
